Dear

Subject: Notice of Detention –

PIU File#: 3730-2/64T-

This letter relates to your request received on January 19, 2015, asking the Recourse Division to review the decision of the Canada Border Services Agency (CBSA) that prohibited the importation of the one (1) Stun Baton Flashlight into Canada.

To consider your request, I have reviewed the relevant legislation, your arguments and/or the information you provided, and I examined the stun baton flashlight (good in issue). Based on this review, I have concluded that it is admissible for importation into Canada.

The good in issue is a Barbarian 9,000,000 stun baton flashlight. It has the Street Wise Security products trademark and is marked "Streetwise Barbarian 9,000,000 SWBAR9R." It include features such as a slide On/Off switch, pocket/belt clip, and three (3) contact strobes with LED flashlight on the top part and a charging port and handle cord at the end of the baton. It includes a charging electrical cord. The total length of this stun baton measures 487-490mm.

Section 6 of Part 3 of the *Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted* (SOR/98-462) read as follows:

6. Any device that is designed to be capable of injuring, immobilizing or incapacitating a person or an animal by discharging an electrical charge produced by means of the amplification or accumulation of the electrical current generated by a battery, where the device is designed or altered so that the electrical charge may be discharged when the device is of a length of less than 480 mm, and any similar device.

Canada 

The Barbarian 9,000,000 stun baton flashlight is more than 480 mm. in length and thus, it does not meet the provisions of section 6 of the *Regulations* (SOR-/98-462). It is admissible for importation into Canada and is classified in 9304.00.90.90 as Other arms, Other, in accordance with GIR 1.

I will forward the good in issue to the following CBSA office for collection of any applicable duties and taxes, and for subsequent release:

CBSA International Mail Processing Center
Gateway-WLPP, 4567 Dixie Road
Mississauga, Ontario
L4W 1S2

This letter represents a decision of the President of the CBSA made under section 60 of the *Customs Act*. You may appeal this decision to the Canadian International Trade Tribunal (CITT), under section 67 of the *Act*, by filing a written notice with both the CITT and the President of the CBSA within **90 days** from the date of this letter. (In exceptional circumstances, the CITT may extend the time limit for filing an appeal up to an additional year under section 67.1 of the *Act*.) You may obtain further information about the CITT process on their website at www.citt.gc.ca, or by contacting the Secretary of the CITT at (613) 990-2452.

I trust this letter satisfactorily explains the President's decision in this matter. If you have any further questions, please contact me at 416-973-8168.

Yours truly,

Rose Tan

Product (1) Barbarian 9,000,000 Stun Baton – Total length 487-490 mm.

Legislative Provision at Issue: Section 60(1) of the *Customs Act*, Subsection 84.1 of the *Criminal Code*, Subsection 136.1, and Tariff 9898.00.00 of the *Customs Tariff*

Issue under Dispute: Whether the good(s) in issue is/are considered prohibited device(s)/weapon(s) as defined in subsection 84(1) of the *Criminal Code*.

Importer's Position: The importer stated that he:

- Respects the law and a licensed firearms owner and not a criminal.
- Researched a stun baton before purchasing the product and found that it is legal to own a stun baton if the device is at least 480 mm. long and not to be carried by human defense.
- Indicated that he purchased the device to scare-off animals. He lived in a wooded land area where bears, cougars, large aggressive dogs are present. His family likes to be outside and this device will be kept on the property for peace of mind.

Previous Decision: The good(s) in issue is/are considered “prohibited weapon(s) and/or device(s) as defined in the “Interpretation”, section 84(1) of the *Criminal Code* and is/are classified as

Canada

prohibited importation under the provisions of section 136(1) and tariff item 9898.00.00 of the *Customs Tariff*.

Case Background: The appeal was received within the 90-day time limit.

Processing Considerations:

January 20, 2015 – I sent the Meaningful Contact letter to the importer.

February 10, 2015 – The good in issue was examined and is currently stored in the Appeals secured location at the Queens Warehouse.

Synopsis of Courts' Decisions: N/A

Analysis:

The good in issue is a Barbarian 9,000,000 stun baton flashlight. It has the Street Wise Security products trademark and is marked "Streetwise Barbarian 9,000,000 SWBAR9R." It include features such as a slide On/Off switch, pocket/belt clip, and three (3) contact strobes with LED flashlight on the top part and a charging port and handle cord at the end of the baton. It includes a charging electrical cord. The total length of this stun baton measures 487-490mm.¹

The Barbarian 9,000,000 stun baton flashlight is described as a rechargeable self-defense product with powerful light beams that have a temporarily blinding effect and immobilized the attacker with the stun baton or strike with the baton. It is made of military grade aluminum alloy and measures over 19" long. The stun baton incorporates Triple Sun Technology (TST) which allows electrical charge to alternate between three separate points on the top of the stun gun (two sides and the

¹ Refer to TAB 5.1

middle). <http://www.selfdefenseproducts.com/Barbarian-9-000-000-Stun-Baton-Flashlight-p-19114.html>²

Section 136 of the *Customs Tariff* prohibits the importation of goods classified under tariff item 9898.00.00 in the Schedule to the *Tariff*. Tariff item 9898.00.00 includes prohibited weapons.

Section 2 and subsection 84(1) of the Criminal Code defines³...

Weapon

any thing used, designed to be used or intended for use

(a) in causing death or injury to any person, or

(b) for the purpose of threatening or intimidating any person

and, without restricting the generality of the foregoing, includes a firearm;

Prohibited Weapon

(a) a knife that has a blade that opens automatically by gravity or centrifugal force or by hand pressure applied to a button, spring or other device in or attached to the handle of the knife, or

(b) any weapon, other than a firearm, that is prescribed to be a prohibited weapon

Section 4 of the *Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted* (SOR/98-462) reads as follows:⁴

4. The weapons listed in Part 3 of the schedule are prohibited weapons for the purposes of paragraph (b) of the definition "prohibited weapon" in subsection 84(1) of the *Criminal Code*.

Section 6 of Part 3 of the schedule to the *Regulations* read as follows:⁵

6. Any device that is designed to be capable of injuring, immobilizing or incapacitating a person or an animal by discharging an electrical charge produced by means of the amplification or accumulation of the electrical current generated by a battery, where the device is designed or altered so that the electrical charge may be discharged **when the device is of a length of less than 480 mm, and any similar device.**

Though the good in issue is capable of incapacitating or immobilizing a person by discharging an electrical charge, it is not considered a prohibited weapon as the product has a length over 480 mm.

² Refer to TAB 5.2

³ Refer to TAB 5.3

⁴ Refer to TAB 5.4

⁵ Refer to TAB 5.4

For this reason, it is considered admissible for importation into Canada and is classified under 9304.00.90.90⁶ as Other arms, Other, in accordance with GIR 1. (Additional reference: Case Number

To whom it may concern, I am writing this letter of appeal in regards to Detention #

I purchased a stun baton after researching the legal aspect of owning such a device in Canada. I found that if the device was at least 480mm long and not to be carried for human defense, that they were legal to own. I purchased this baton to have on our property to scare-off animals. We live on wooded land where bears and cougars have been seen.

We also get large dogs roaming around, they can get aggressive.

This device was only to be kept on the property for peace of mind. My family likes to be outside, gardening, playing and taking photos of all the birds at the feeder. Please allow me to receive this device. I respect the law and have no intentions of doing wrong.

Thank you,

Canada Border Services Agency

Dear Sir or Madam:

Re: Port of Entry:
Detention Number:
P.I.U. File Number:
Other Reference Number:

INTERNATIONAL MAIL - 491

You are advised that the imported item(s) listed below is/are considered a "prohibited weapon(s) and/or device(s)" as defined in Section 84 (1) of the Criminal Code and is/are classified as a prohibited importation under the provisions of Section 136(1) of the Customs Tariff and tariff item 9898.00.00 of the Customs Tariff.

1 x Stun Gun Baton

This represents a decision by a Senior Officer Trade Compliance under section 58 of the Customs Act. As the importer of the described good(s), you may exercise any one of the following options:

1. You may **APPEAL** this decision **in writing** to the following address:

Canada Border Services Agency
Trade Program Appeals - Toronto Unit
Appeals Division
1 Front Street West, 3rd Floor
Toronto, Ontario
M5J 2X5

Your appeal must be filed within **90 days** of the date of this letter to an Appeals Officer in accordance with subsection 60(1) of the Customs Act. The President of the CBSA may, in exceptional circumstances, extend this time limit up to one additional year pursuant to Section 60.1 of the Customs Act.

Please ensure to provide a copy of this decision (this letter) along with your appeal request.

2. You may **ABANDON** the item(s) to the Crown, forfeiting your right to appeal, in which case the item(s) will be destroyed 90 days after the date of this letter.

3. You may **EXPORT** the properly reported goods. Please see attached copy of Export of Prohibited Goods Procedures for details on this process.

Most carriers will not transport prohibited goods. It is the importer's (your) responsibility to find a Customs Bonded Carrier willing to transport them. Before exporting any of these items, individuals and companies should check with customs officials in the country to which the goods are being exported to verify if these goods are admissible in that country. Applications for export permits are available from any customs office or from the Department of Foreign Affairs and International Trade, Export and Import Controls Bureau.

Reference File No: '

PROTECTED

Dear]

Subject: Dispute concerning PIU File #: 3730-2/64T- Port Reference #: '

This is to inform you that, on January 19, 2015, the Canada Border Services Agency (CBSA) received your dispute notice about the tariff classification of 1 Stun Gun baton.

The CBSA records indicate that the detention notice classifying this article as prohibited good of tariff item 9898.00.00 was issued on January 5, 2015. Tariff item 9898.00.00 includes firearms, prohibited and restricted weapons, and prohibited devices and ammunition, all of which are defined in the Criminal Code.

Our file reference number is ' Please quote this reference number in any future communication concerning this matter.

The Appeals Division has a mandate to perform a full and impartial review of disputes on tariff classification. First, I will ensure that I have the legislative authority to deal with your dispute under section 60 of the *Customs Act*. If so, I will consider the position that you have taken in this dispute and the reasons for the decision under review. I may contact you or others for additional information and will advise you if there are unexpected delays in the processing of your dispute. Once I have completed the research, I will send you a letter with my decision and reasons.

If you wish to provide further information that is relevant to the legislation I must consider, please send it to me **within 20 days** of the date of this letter. To understand what may be relevant, you may read the definitions in section 2 and 84 of the *Criminal Code*, which is available on the Department of Justice Internet site at

Canada

<http://laws.justice.gc.ca/en/showtdm/cs/C-46>. You may also consider information in the following publications, which are available on the CBSA Internet site at <http://www.cbsa-asfc.gc.ca/publications/menu-eng.html>:

- Customs Memorandum D19-13-2, *Imported and Exported Firearms, Weapons, and Devices*
- *Customs Tariff, Criminal Code, Firearms Act, and Export and Import Permits Act*;
- Customs Memorandum D11-6-7, *Importers' Dispute Resolution Process...*

The following are examples of factors that are not relevant to the definitions in the *Criminal Code*:

- The article was sent as a gift;
- The article was purchased solely for collection or decorative purposes;
- The owner or purchaser plans to use the article only to practice a martial art or sport;
- The article will be used in a safe and controlled environment;
- The owner or purchaser believes that similar goods are (or have been) sold in Canada; or
- The owner or purchaser has, or knows of others who have, imported similar goods previously.

Please note that if I determine that the goods are prohibited weapons or devices (including firearms) and no further appeal is outstanding, sections 102 and 142 of the *Customs Act*, sections 35, 37 and 40 of the *Firearms Act*, and/or their respective regulations, entitle the CBSA to consider such goods as forfeit to the Crown and to dispose of them. As some prohibited goods may be eligible for export at the owner's expense, I will send you some information about this with my decision letter.

Should you have any questions or comments related to this letter or your dispute, please feel free to contact me by fax at 416-954-6740 or by phone at 416-973-8168.

Yours truly,

Rose Tan

Features:

- **Powerful Stun Baton:** Just test firing this unit into the air is often enough to stop an attacker. As the bright electric current pulses across the top of the unit, it creates an intimidating electrical sound. An attacker with any sense will be stopped in his tracks. If the sight and sound doesn't stop him, a jolt from this unit certainly will.
- **Military Grade Aluminum Alloy:** The shock proof exterior not only protects the unit from damage but can also be used to strike your assailant.
- **Triple Stun Technology:** The SWBAR9R incorporates Triple Stun Technology (TST) which allows the electrical charge to alternate between three separate points on the top of the stun gun (two sides and the middle). This loud and bright electrical burst illuminates the entire top of the stun gun. Just the sight and sound of this intimidating electrical charge is often enough to stop an attacker, and if not, a jolt from this unit certainly will!
- **Long Reach:** At over 19" long, this is one of our longest stun batons. It allows you to defend yourself while keeping you at a safe distance from your attacker.

SWBAR9R Instruction Manual

Recharging

1. The rechargeable batteries are already installed. The unit cannot be opened, as this will void the warranty.
2. We recommend charging the unit before it is used. Simply plug the charging cord into the bottom of the unit and into a standard outlet. A red light will come on while the unit is charging. **IMPORTANT:** do not charge for more than 8 hours at a time. Overcharging can damage the unit and void the warranty. Under normal use the unit will need to be recharged for 8 hours every 80 days. If the LED flashlight is used frequently or if the electrical current becomes noticeably weaker, the unit will need to be recharged.

Using the Flashlight (this unit features three light modes: full strength, half strength, and strobe)

1. Slide the on/off switch on the bottom of the unit to the "ON" position.
2. Slide the Safety and Light Mode Switch to the middle position to turn on the light.
3. To change the light mode move the switch from the middle to the top or bottom position then back to the middle position.

Using the Stun Gun (WARNING: Do not test the stun gun for more than 1 second as this will damage the unit and void the warranty.)

1. Slide the on/off switch on the bottom of the unit to the "ON" position.
2. Slide the Safety and Light Mode Switch to the top position (a red stun warning light will come on to indicate the unit is ready to fire). Note: the stun feature will not work when the flashlight is on.
3. Press the Stun Activation Button to test fire the unit. Do not hold the button down for more than 1 second. You will see and hear a charge line across the top of the unit between the contact probes. Important: slide the on/off switch to "OFF" when you no longer want the unit in fire.

Using the Stun Gun in Self Defense

1. With the on/off switch in the "on" position and the safety switch in the top position, touch your assailant's body with the contact probes and press the Stun Activation Button.
2. Touching anywhere on the assailant's body will have an effect. However, the maximum effect is achieved in the areas shown to the right:
3. When touching the assailant's body, you will not see or hear the electrical charge as you do when the unit is test fired. You can hold the Stun Activation Button down for more than 1 second, as this will not damage the unit, as it will when being test fired.
4. You do not have to be concerned about the effects of the charge being transferred to you. Even if the assailant touches you while being stunned, you will not feel the effects of the charge.

Effects of the Unit on an Assailant

1. Touching an assailant for less than 1 second will cause minor muscle contractions and have a repelling effect.
2. Touching an assailant for 1 to 2 seconds will cause muscle spasms and a dazed mental state.
3. Touching an assailant for 3 to 6 seconds will cause loss of balance and muscle control, total mental confusion, and disorientation. All effects to the assailant are temporary; the stun batons can cause no permanent harm. (NOTE: This device should not be used for longer than 5 seconds.)

WARRANTY: Street Wise Security Products extends a lifetime warranty to the SWBAR9R for the product against defects in materials or workmanship, with the following exceptions:

The warranty does not cover damage resulting from accident, misuse or abuse, lack of reasonable care, moisture, the affixing of any attachment not provided with the product, loss of parts, or recharging the unit in any manner not in accordance with the included instructions.

The warranty will be voided if the unit has been opened or tampered with in any way (unless by an authorized dealer) or if any unauthorized replacement parts have been used.

NOTICE: Purchaser must check and abide by all local laws governing the possession and use of stun batons. In addition, the stun batons must only be used in a lawful manner for self-defense. **NOTE:** Not to be used on children, persons with heart disease, or any vital part of the human body. Not to be stored or used in environments where it is damp or humid or where there are extremely hot or cold temperatures. Do not use on metal objects.

Conditions of Sale: Purchase of this product is an agreement by the purchaser/user to hold all sellers and manufacturers harmless of all liabilities and damages.

To Obtain Service: Contact the Authorized Dealer from whom you purchased this unit for a Return Merchandise Authorization. The return unit must be sent postage prepaid. Damage or loss occurring during shipment is not covered by this warranty.

Vancouver International Mail Centre; Pacific Region; Stun Guns Seizure

On 2015, a suspicious package was intercepted. The package originated from a business in and was going to a male individual in the parcel was declared as "Bright LED Flashlight – Urban Warfare." Upon x-ray and verification of the parcel contents, 10 "powerful flashlight" stun guns were found and seized with no terms of release.

Toronto-Pearson International Airport, Air Cargo; GTA Region; Alcohol Seizure

On 2015, BSOs attended Transcargo warehouse to examine a shipment. The officers located three different kinds of bottles with labels that indicated that the contents in the bottles were alcohol. No alcohol was declared in the entry presented by the client. Samples were taken from each bottle and sent to the lab for testing and determination. On 2015 results from the lab advised

CRIMINAL INVESTIGATIONS OPERATIONS | OPÉRATIONS DES ENQUÊTES CRIMINELLES

Enforcement and Intelligence Operations; Prairie Region; Guilty Plea

On July 7, 2015, the media reported that Jason Thomas KRUSE pleaded guilty to a single charge of unauthorized possession of a prohibited weapon, and given one year sentence to be served in the community:

<http://www.edmontonjournal.com/news/edmonton/Edmonton+sentenced+ordering+illegal+stun+guns+from/11195103/story.html>

Background: On November 16-17, 2014, Vancouver Mail Centre intercepted 24 "flashlight" stun guns

Criminal Investigation Division; GTAR; IRPA charges follow eleven month investigation

On July 07, 2015, following an eleven month investigation into the activities of two self-proclaimed employment agents, members of the Canada Border Services Agency's Criminal Investigation Division executed a search warrant at a residence in Mississauga, Ontario. As a result of this investigation, three individuals have been charged with a number of offences under the Immigration and Refugee Protection Act. It is alleged that the accused acted as unauthorized immigration consultants, provided false information to clients, and provided false information to government officials in order to obtain Canadian visas. All three will be in bail court on July 8, 2015.

Edmonton International Airport Commercial; Prairie Region; Stungun flashlight devices

On July 18, 2016, officers examined a shipment declared as flashlights, arriving from Hong Kong. Upon examination of the goods, officers found 12 various flashlight/stun gun devices. The devices were held on a BSF241 as prohibited devices and referred to local investigations.

Vancouver International Airport; Pacific Region; Level IV Currency Seizure

On July 18, 2016 Roving Team Officers roved a single Canadian male traveler departing to Hong Kong. The currency legislation was explained in full and the subject stated he was below the reporting threshold. Subject was selected for verification and was subsequently found to be in possession of more than the reportable threshold. During the examination,

The enforcement actions identified below were recorded in ICES during the reporting period:

Number of seizures	
Value for duty	
Terms of release	
Arrest warrant	
Smuggling	
Impaired Driving

SIGNIFICANT SEIZURES | SAISIES IMPORTANTES

Vancouver International Airport; Pacific Region; Currency Seizure

On August 28, 2015, at approximately 0510 PT, a subject arriving from Shanghai was referred for secondary examination. During the course of the secondary examination, the subject was found to be in possession of a significant amount of unreported currency. The currency was concealed in bundles within the lining of the subjects suitcases, concealed within contents, as was well as concealed within a pair of rubber boots. The subject is a frequent traveller that has in the past been compliant with reporting currency exceeding \$10,000. When asked why he failed to declare the currency in this instance, subject stated that it was very complicated further adding that in China a lot of business is done under the table. A level 4 currency seizure for Non-Report was applied. A total of CAD equivalent value was seized as suspected proceeds of crime with no terms of release (ICES)

North Portal; Prairie Region; Firearm Seizure

On August 29, 2015, at 1915 CT, a US citizen, enroute to Alaska with his family due to military relocation, failed to properly declare two handguns and was placed under arrest. At primary, subject declared one long gun as well as one

CRIMINAL INVESTIGATIONS OPERATIONS | OPÉRATIONS DES ENQUÊTES CRIMINELLES

Criminal Investigations Section; Pacific Region; Conviction for Unlawful Importation of Stun Guns

On August 26, 2015, in Vancouver Provincial Court, a Maple Ridge man, Mr. Jonathan Alexander MacWillie, was sentenced to a fine of \$2,500, 1 year probation and 40 hours of community service for acquiring goods illegally imported, contrary to section 155 of the Customs Act. MacWillie had previously pleaded guilty to the offence. The charges stem from referrals from the Vancouver International Mail Centre (VIMC). On November 24, 2011, a package was seized addressed to the subject which contained ten stun guns.

stun guns.

PORT-OF-ENTRY | AU POINT D'ENTRÉE

Prince Rupert; Pacific Region; MV COSCO Indonesia arrival

On August 28, 2015, at 0615 PT, the MV COSCO Indonesia came alongside at the Fairview Terminal in Prince Rupert. No issues were identified either prior to or upon arrival with the crew, cargo or vessel. The ship's agent, who was in contact with the ship's Captain daily during the voyage over, stated the Captain confirmed no issues with his crew, the vessel or cargo on board. Prior to arrival in Canada, this vessel was identified as being in the port and taking on cargo in Tianjin during the timeframe that the explosions occurred in that city. No risks have been identified and the usual CBSA processes will be undertaken to clear cargo. Offloading of the MV COSCO Indonesia commenced at 0815 PT. On August 29, 2015, at 2230 PT, the MV COSCO Indonesia completed discharge and reloading and departed from the dock at Fairview Terminal.

Windsor Airport; SOR; Temporary reallocation of personnel to Windsor-Detroit Tunnel

On August 29, 2015, at 0800 ET, until August 31, 2015, BSOs at the airport operations at the Windsor Airport were reallocated to the [Windsor-Detroit Tunnel](#). The reallocation was due to high volumes of traffic and the exhaustion of the OT list at the Tunnel. Personnel were unavailable from the Ambassador Bridge.

Toronto Pearson International Airport - Terminal 1; GTA Region; Project Mustard

Hello Nathan,

As per our conversation this AM. Nowhere in the *Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted* or D19-13-2 Importing and Exporting Firearms, Weapons and Devices are there size specifications when determining the importation of blow guns.

From the *Regulations Prescribing Certain Firearms and other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited or Restricted*:

Former Prohibited Weapons Order, No. 6

- **12.** The device commonly known as "Yaqua Blowgun", being a tube or pipe designed for the purpose of shooting arrows or darts by the breath, and any similar device.

From D19-13-2 Importing and Exporting Firearms, Weapons and Devices:

Blowgun (Yaqua Blowgun)

39. The device commonly known as "Yaqua Blowgun", being a tube or pipe designed for the purpose of shooting arrows or darts by the breath, and any similar device. Blowguns are hollow tubes typically made of wood or plastic with an opening at each end. Darts or arrows are placed in one end, and forced out the other end using the force of the operator's breath. The darts used may be made of metal, plastic or wood, and can occasionally be made with poison tips.

There are size specifications for other weapons such as cross bows, stun guns or other types of electric-shock devices and devices shorter than 30cm with concealed knife blade (innocuous objects).

There are also Canadian International Trade Tribunal decisions that uphold the prohibited status of blow guns and size is not a factor in the decisions.

Please feel free to contact me if you have further questions.

Thank you,

Tim

Subject: Taser vs. Stun gun

Tracking:	Recipient	Read
	Kumar, Mande	Read: 2015-12-01 04:52 PM

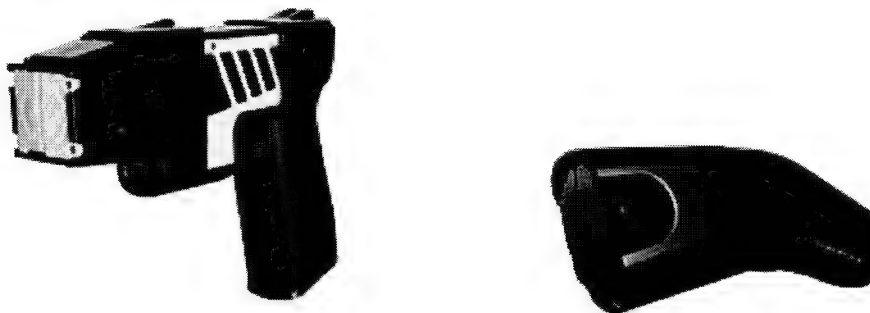

Hello Mande,

There is confusion over tasers vs stun guns. As per the *Regulations Prescribing Certain Firearms and Other Weapons, Components and Parts of Weapons, Accessories, Cartridge Magazines, Ammunition and Projectiles as Prohibited, Restricted or Non-Restricted*, a taser device is a prohibited firearm:

PART I PROHIBITED FIREARMS

Former Prohibited Weapons Order, No. 3

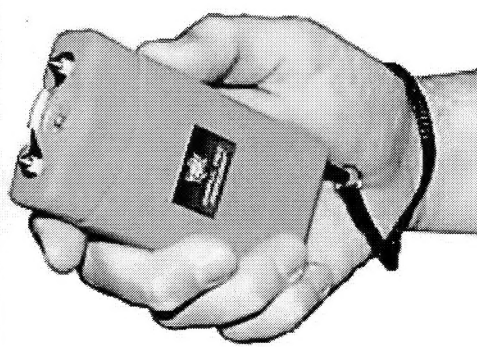

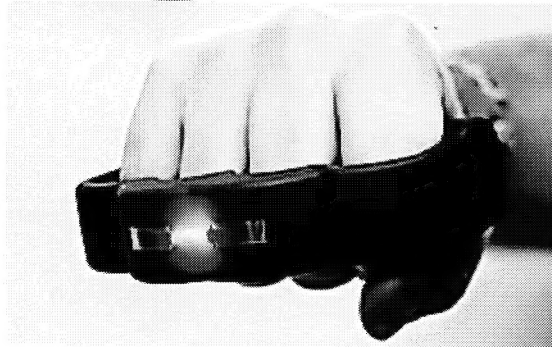

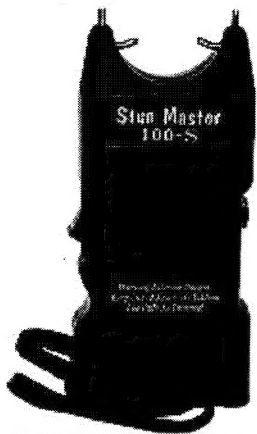

- 1. Any firearm capable of discharging a dart or other object carrying an electrical current or substance, including the firearm of the design commonly known as the Taser Public Defender and any variant or modified version of it.

•
 A stun gun is a prohibited weapon:

Former Prohibited Weapons Order, No. 3

- 6. Any device that is designed to be capable of injuring, immobilizing or incapacitating a person or an animal by discharging an electrical charge produced by means of the amplification or accumulation of the electrical current generated by a battery, where the device is designed or altered so that the electrical charge may be discharged when the device is of a length of less than 480 mm, and any similar device.

As an aside, you really need to get access to the internet sites such as Youtube and the weapons sites. We asked for audio/video clips, illegal/questionable, media sharing, radio/audio streams and weapons. I highly recommend this access as it is invaluable for researching various firearms and weapons.

Subject: Stun gun/walking stick

Good afternoon everyone,

This email is to inform you of a new product on the market that a few officers have brought to our attention- a hiking/walking stick that doubles as a stun-gun. It is not a prohibited weapon (given its length is over 480mm), and this email is simply being sent to enhance awareness of this product. Please forward as you see fit.

Research started when an officer inquired about admissibility of a Stun Gun/Walking stick (personal security product) that discharges a 950,000V charge to keep animals at bay.

Please check out the following link for product details:

<http://indefinitelywild.gizmodo.com/keep-dangerous-animals-at-bay-with-this-950-000-volt-hi-1617698059>

<http://www.basspro.com/Personal-Security-Products-Hike-n-Strike-950000-Volt-Stun-Gun-Hiking-Stick/product/1502161633/>

Paragraph 30, D 19-13-2 relates to stun guns and other type of electric shock devices and it clarifies that such devices are prohibited only if they are LESS THAN 480mm in length, therefore making this 56 inches long walking stick (over 1400 mm) not prohibited.

D19-13-2

Device with incapacitating electric charge shorter than 480 mm

Para 30. This category includes any device that is designed to be capable of injuring, immobilizing or incapacitating a person or an animal by discharging an electrical charge produced by means of the amplification or accumulation of the electrical current generated by a battery, where the device is designed or altered so that the electrical charge may be discharged when the device is of a length of less than 480 mm, and any similar device. Examples of these are stun guns or other types of electric-shock devices.

BSOs can contact me directly with a cc to their superintendents, if they have any questions related to firearms.

Thank you,

Subject: Definition of "Incapacitate"

Follow Up Flag: Follow up
Flag Status: Completed

Hi Tim,

Can you tell me if there has ever been an official definition made of the word incapacitate as it relates to stun guns and/or pepper spray.

Eg. a practical joke stun pen causes an annoying shock, an electric cigarette lighter can cause painful electrical burns but at what point is the shock sufficient to be considered incapacitating and therefore prohibited as a stun gun?

Thanks,
